

CELL VOCABULARY

MAGIC SQUARE

Directions: Cut out each box. Match the definitions to the correct term. Some terms will not be used. You will get another 3 x 3 square when you are done.!

<p>cell organelle that stores materials</p> <p>1</p> <p>lysosome</p>	<p>cell</p> <p>paramacium</p>	<p>breaks down things inside cell</p> <p>2</p> <p>photosynthesis occurs here</p>	<p>hairlike projections that are used for locomotion</p> <p>pseudopod</p>	<p>jellylike fluid inside cell</p> <p>3</p> <p>mitochondria</p>	<p>rigid barrier for plant cells</p> <p>cell wall</p>
<p>controls which substances enter and leave cell</p> <p>4</p> <p>cytoplasm</p>	<p>volvox</p> <p>vacuole</p>	<p>carries out specific function within a cell</p> <p>5</p> <p>prokaryote</p>	<p>homeostasis</p> <p>chloroplast</p>	<p>control center of the cell</p> <p>6</p> <p>ribosome</p>	<p>organ</p> <p>organelle</p>
<p>euglena</p> <p>7</p> <p>nucleus</p>	<p>amoeba</p> <p>cell membrane</p>	<p>powerhouse of the cell</p> <p>8</p> <p>eukaryote</p>	<p>tail like structure that enables a cell to move</p> <p>organelle</p>	<p>organelle in which proteins are made</p> <p>9</p> <p>organism</p>	<p>tissue</p> <p>flagellum</p>

KEY

<p>amoeba</p> <p>euglena</p> <p>nucleus</p> <p>7</p> <p>cell membrane</p>	<p>volvox</p> <p>controls which substances enter and leave cell</p> <p>4</p> <p>cytoplasm</p> <p>vacuole</p>	<p>paramecium</p> <p>cell organelle that stores materials</p> <p>1</p> <p>lysosome</p> <p>cell</p>
<p>organ</p> <p>ribosome</p> <p>6</p> <p>cell wall</p> <p>control center of the cell</p>	<p>mitochondria</p> <p>3</p> <p>rigid barrier for plant cells</p> <p>jellylike fluid inside cell</p> <p>cilia</p>	<p>pseudopod</p> <p>2</p> <p>hairlike projections that are used for locomotion</p> <p>breaks down things inside cell</p> <p>photosynthesis occurs here</p>
<p>tissue</p> <p>organism</p> <p>9</p> <p>flagellum</p> <p>organelle in which proteins are made</p>	<p>eukaryote</p> <p>8</p> <p>tail like structure that enables a cell to move</p> <p>powerhouse of the cell</p> <p>organelle</p>	<p>prokaryote</p> <p>5</p> <p>chloroplast</p> <p>carries out specific function within a cell</p> <p>homeostasis</p>

Thank you for
purchasing my cell
vocabulary Magic square!

HOPE YOU ENJOY!
